PLEASE NOTE!

As of May, 2010, Mapquest is still NOT able to find our address on Piercy Rd. DO NOT USE MAPQUEST to get directions to Equinection.

Google Maps can actually locate us properly, BUT... Google's actual map still shows the road with the wrong name (McCurry Rd – that was the name of Piercy Rd many years ago).

WE DO NOT RECOMMEND USING GOOGLE MAPS OR MAPQUEST FOR DIRECTIONS TO EQUINECTION. From areas North of us, both systems will route you here via obscure mountainous roads that are SLOW and NOT WELL MARKED. The actual mileage may be somewhat shorter, but real driving time is significantly longer. Several people have gotten lost attempting to follow these directions.
